

DESOGERME MICROCHOC

HIGH PERFORMANCE CONCENTRATED DISINFECTANT

- **Very wide spectrum: bactericidal, fungicidal, virucidal and sporicidal.**
- **French registration N°2000161 by Ministry of Agriculture.**
- **Very economical: dilution 2%.**
- **Spray on surfaces, in animal presence.**
- **Formaldehyde, phenol, chlorine and peroxide free.**
- **Usable in organic farming*.**
- **Food contact approved.**
- **Tested efficient against Avian Influenza at 0.2%.**
- **Thermofoggable.**

PHYSICO-CHEMICAL CHARACTERISTICS :

- Clear, Amber color with a characteristic odor.
- Non Flammable.
- Density at 20°C : 1,00 ± 0,02.
- Concentrated solution's pH : 4,7 ± 0,3. Neutral pH at use dosis.
- Composition : didecyl dimethyl ammonium chloride 28 g/L ; alkyl dimethyl benzyl ammonium chloride 100 g/L ; Glutaraldehyde 100 g/L.
- Very wide bactericidal spectrum : Gram + and Gram - bacteria, mycobacteria, listeria..., Fungi, molds and yeasts, H.C.C. virus, Talfan, Newcastle, Myxomatosis, swine pest and bacteriophages,
- Complies with disinfection Standards **NFT 72301, NFT 72181, NFT 72231, EN 1276, EN 1650** (from 0.25% to 2%).
- Approval for the prophylaxis of infectious diseases No. 2789 (including Foot and Mouth Disease), Order of the 02/28/1957.
- Active in hard water and in presence of organic material .
- DL 50 = 1900 mg/Kg (oral rat).

DESOGERME MICROCHOC is a biocide used for PT 03 use (biocidal products for veterinary hygiene) and PT 04 use (disinfectants for surfaces in contact with foodstuffs and animal feed).

- Biocide Directive CE 98/8 : actives substances are notified in appendix II.

SAFETY / ENVIRONMENT :

- Registered by the French Ministry of Agriculture under N° 2000161.
- The product is classified corrosive; at it's maximal use dosis, it is not subject to any classification according to Biocidal Directive 1999/45/CE.
- * ECOCERT product : usable in organic farming

- Active substances contained in **DESOGERME MICROCHOC** are listed in Ministerial Decree dated 8/9/99, regarding cleaning products that may come in contact with **foodstuffs**.
- Wearing gloves, goggles and protective mask is highly recommended.
- Respect use dosis.
- Avoid rejecting concentrated product in the environment.
- Recycle packaging through an authorized service provider.

INSTRUCTIONS FOR USE :

1. For equipment and premises in absence of animals :

Empty buildings, vehicles ...:

- Preliminary cleaning with **AXIS HYGIENET NF** or **DNM**.
- Disinfection with **LEXAN PREMIER, KOTHRINE FLOW** or **PARAMOUCHE**.
- Disinfection by spraying or dipping with pressure machine, Atomist... on walls, floors, feeders, vehicles and various equipments.
- Footdips and wheeldips : renew once a week.

2. For equipment and premises in presence of animals :

Maintenance disinfection : **DESOGERME MICROCHOC** can be sprayed on floors, walls with **PULBAN, PULPREA F6** or **PULDOS** equipment, carefully avoiding to direct spray in the direction, above or near animals and their food.

Dosis and uses : Bactericidal at 0,25%, (contact time 5 mn), fungicidal (contact time 15 mn) and virucidal (contact time 30 mn) at 2%..
Thermonebulization: 1,5 ml/m³, contact time **4 hours**.
